

ecobox planner: Templates

Instructions

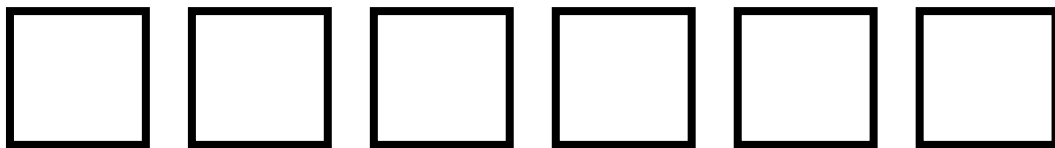

Cut out these templates to plan your own ecobox and Stack it Your Way.

Use the grid supplied as a base for these, or you can draw directly onto the grid!

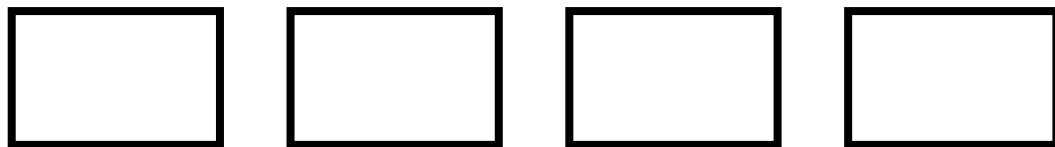

small ecobox

standard ecobox

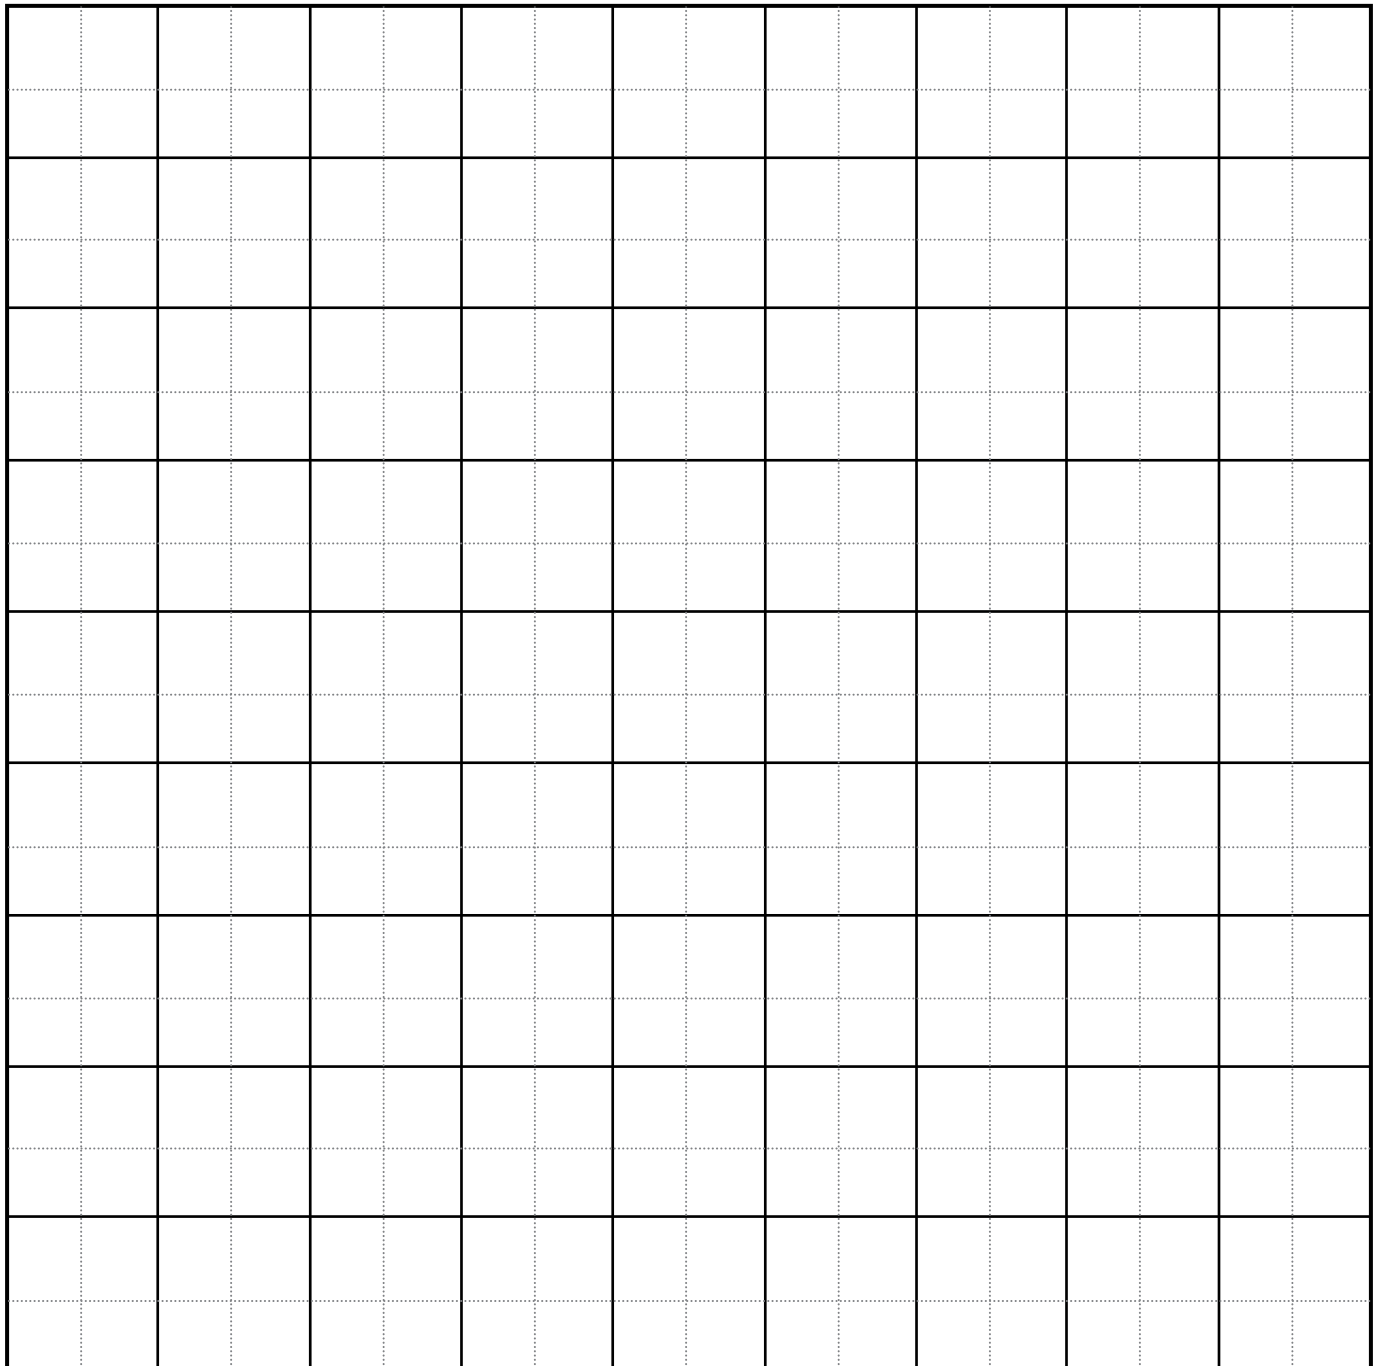

medium ecobox

large ecobox

ecobox planner: Base grid

Instructions

Use this grid to plan your own ecobox stack.

Either draw on this grid or use the cut-out templates provided to Stack it Your Way!

1 square=1 standard ecobox (380mm)

1.5 squares=1 medium ecobox

2 squares=1 large ecobox

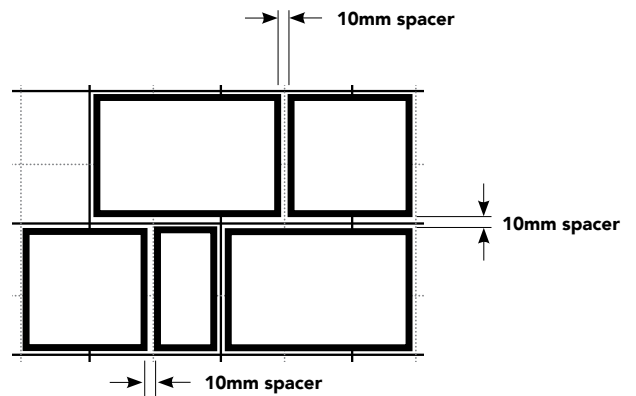

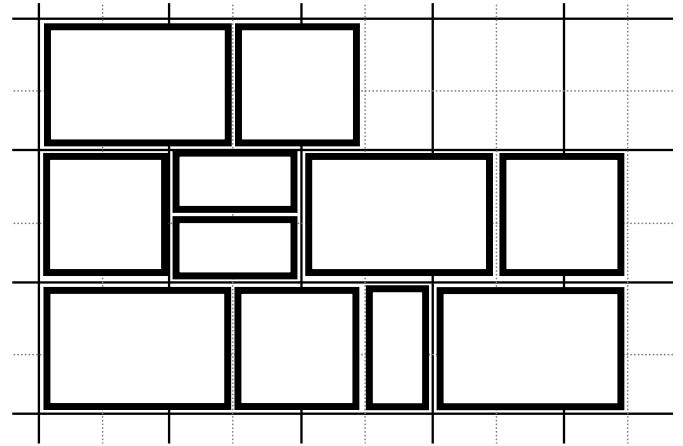

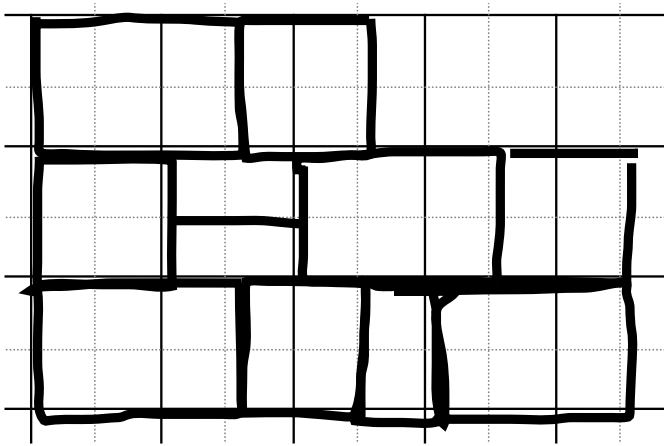

1/2 square=1 small ecobox

Please note: Remember to add 10mm spacer gap between each ecobox to calculate overall height and width.

ecobox planner: Examples

Examples

These 2 examples show how you can use this planner to create a truly unique display or storage solution with ecobox.

Please note:

When calculating your final size, please allow for 10mm spacers, as shown, which sit between each ecobox.

Combine ecobox with Cubox for a unique, stylish look.

ecobox and Cubox are designed to combine.

Cubox shares the same dimensions as ecobox and can be added to your ecobox stack to bring a truly individual touch of class to your place.
